

Disposable Endoscope Valves System

For Olympus Endoscopes

Features

- Compatible with Olympus® Endoscopes 140/160/180/190/240/260/290 series.
- Single use, eliminate the work burden of reprocessing.
- No lubricant on the valves to interfere the procedure or obstruct the view.
- Suction valve with metal shaft, to help maintain the suction force like the reusable valves.
- Water jet connector with unique threading design, to minimize potential to cross thread and avoid leakage.
- Valves come packaged in sterile kits for ease use.
- Great blister packing design enables the valves to drop out of box easily.
- High quality and cost effective.

Product Picture	Ref. Code	Description	Units/Box
	CIT-VK-001	4-piece Valve kit (Air/Water Valve, Suction Valve, Water Jet Connector, Biopsy Valve)	25
	CIT-VK-002	3-piece Valve kit (Air/Water Valve, Suction Valve, Biopsy Valve)	25
	CIT-VK-005	2-piece Valve kit (Air/Water Valve, Suction Valve)	25
	CIT-VK-006	4-piece Valve kit (Air/Water Valve, Suction Valve, Biopsy Valve, AW Channel Cleaning Adapter)	25
